

LOGISTICS & WMS

.....

We're here to achieve your goals. With over 20 years of experience, we comprehend the needs of your logistics and warehouse management systems. Our network comprises seasoned professionals providing tailored solutions that perfectly align with your needs and objectives. Together, we ensure your enterprise remains flexible, scalable, and future-ready, allowing you to focus on achieving your objectives.

Our Expertise

We specialize in international Warehouse Management System (WMS) implementations, focusing on Blue Yonder/JDA. By providing professionals on a temporary or permanent basis, we offer the expertise to design, implement, analyze, and optimize new projects. G-Nius is a Blue Yonder/JDA alliance member.

TRENDS

Automation

Integrating WMS systems with automated storage and order picking systems like AMRs, sorting systems, and drones for enhanced efficiency and precision in warehouse operations.

Cloud-based solutions

More and more companies are opting for cloud-based WMS solutions due to scalability, flexibility, and lower initial investment costs.

Collecting and analyzing data

Enhanced WMS analysis reveals warehouse trends for better decision-making and supply chain optimization.

Mobile Applications

Mobile devices enhance warehouse flexibility and productivity by executing WMS tasks

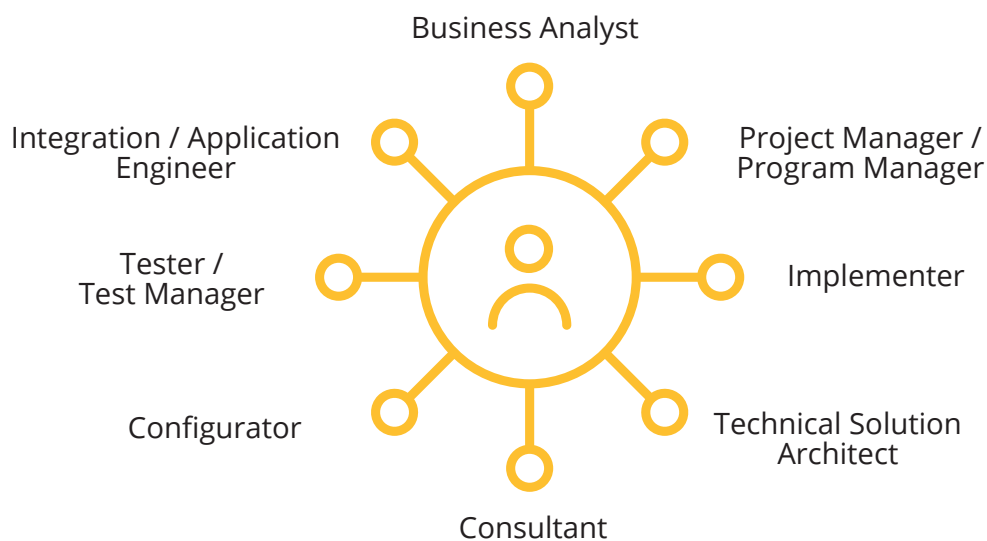

AI and Machine Learning

AI and machine learning perform predictive analyses, such as demand forecasting, enabling businesses to manage their inventory levels more accurately.

Flexibility and Scalability

WMS systems need to become more flexible and scalable to adapt to changing business conditions.

OUR WMS PROFESSIONALS

WHY CHOOSE G-NIUS?

Over 20 years of expertise in secondment and consultancy
